

# Brush kit

For cleaning energy drink residue from your tube

Model .....	Brush
Dimension .....	102.5cm
Weight .....	6gr.
Material .....	Stainless steel spring handle with nylon fiber

< Specs

**To Use** Disconnect the tube from the bladder. Disconnect the valve from the angled part. Using soapy water or lemon juice, insert the brush inside the tube several times, then drain and hang until completely dry.

< Use & Care

**Tips** We recommend using fresh lemon juice instead of soapy water as it is a natural sterilizer.
